

Planted Design
Hiring: Art Fabrication Technician

Planted Design

Planted Design is a full service firm in Emeryville, California that is focused on creating beautiful, functional and sustainable moss art pieces and living walls. We bring nature to unexpected places, and we believe in cultivating our people and promoting from within so that their roles with us are more than just jobs.

Job Brief:

We are hiring a team member to join our Art Production team. Under the direction of the Art Fabrication Manager, this role involves full days of carefully installing stabilized mosses and foliage onto different mediums and other custom pieces while standing and using various production tools, as well as participating in off-site project installations. You will be instructed on each custom project's design parameters and be asked to follow detailed instructions. Production team members must be able to work with their hands, have an eye for detail, be efficient, have good common sense, and improvise as needed while following best practices and safety standards..

Requirements:

- Must have strong attention to detail, excellent work ethic, high quality standards and consistent tidiness
- Must be comfortable working with hot glue guns and basic hand tools for a full day
- Must be comfortable driving modern larger vehicles (pickup trucks and vans) in East Bay and San Francisco to visit client plant installations
- Able to stand up for the majority of the day, lift up to 45 pounds, be comfortable manipulating medium sized tools for a full day and squatting and bending down for periods of time
- Proficient in Google Suite, including Docs, Calendar and Gmail
- Must be a team player with a positive can-do attitude, a willingness to follow direction, and the ability to work both with others and independently

Responsibilities:

Fabrication Technician

- Following detailed design plans to apply preserved plants
- Preparing projects and materials for installations, including: packing up projects, gathering appropriate tools, and loading company vehicles
- Going to installations to help hang/install pieces
- Being mindful of your tools and staying safe while on the job
- Install large pieces in sections and seaming together on location
- Install large quantities of live plants on location per design layout
- Assisting with weekly plant care around the studio
- Assembling CNC and laser cut logos, lettering, and integrating into moss walls
- Maintaining the organization and cleanliness of entire studio and company vehicles

- Preparing, wrapping, and planting live plants
- Setting up and taking down moss walls for events

Bonus Points For:

- Knowledge of and experience with plants, including troubleshooting around pests and other plant health issues
- Strong design sense
- Experience in construction or landscaping

Time & Compensation:

- Typical hours are 8 AM - 4:30 PM, Monday through Friday. Installations may occasionally require adjusted hours, such as early mornings, evenings and weekends
- Compensation: starting at \$18/hr
 - Health insurance provided on the first of the month following 60 days in role. Planted Design covers 75% of medical insurance premium, and 50% of vision and dental premiums for team members
 - Fifteen paid days off per year. Accrual begins after 90 days
 - Nine paid holidays per year
 - 401(k) eligibility after one year, with annual company contributions of 3% of gross pay

If you feel like you have the right attitude and qualifications, please apply with your resume and a brief description about yourself and why you feel you are the right person for this role.
